

Statistical Agency staff will participate in training of «Concept for developing the human resource department ».

October 12, 2010. A five day seminar for Heads of Statistical units and Human resource specialists has started today at the Statistical Agency under the President of Republic of Tajikistan within “Strengthening the National Statistical System Project” (TAJSTAT) project. The participants total of 30 people from District under Republican subordination and HR department staff of Central Administrative office and General directorate of Gorno-Badakhshan autonomous, Sughd, Khatlon provinces and Dushanbe city will get familiar with advanced experience of Statistical Office of Germany.

During the seminar participant will discussed «Human Resource development in Federal Statistical Office of Germany», «Purposes and conception of HR department development» and other issues concerning HR.

The seminar will be conducted by Mrs. Anja Gühnen – Head of Human resources Section and Mr. Stefan Wondrak – Administration official “Strategy and planning, international relations, research and communication” Department of Federal Statistical Office of Germany.

In addition HR staff will get familiar with software program «Access-Human resource».

It should be noted that since 2007, 171 staff of Statistical Agency under the President of Republic of Tajikistan within the project have participated in different study visits outside of Tajikistan.

The TAJSTAT Project has started in July 2007 and funded by International Development Association (World Bank), SIDA , DFID and Government of Republic of Tajikistan. Total amount of the project is more than five millions USD (5.85 mln.,).
